

HBN UPGRADE

Premiering from February 1, 2007!

There are a lot of great things coming from **HBN**, the Herbalife Broadband Network, and many big announcements.

On **from February 1**, the HBN sites will be upgraded to a new system. This will greatly enhance your HBN on-line experience and deliver many upgraded new features.

The HBN upgrade includes:

- A new, **fresh interface** which will enhance the user experience and navigation around the site, plus provide better access to videos.
- New features, such as the “**User Ratings**”, “**User-defined PlayLists**”, “**Podcasts**”, “**RSS (Real Simple Syndication) Feeds**”, plus much more.
- **Enhanced streaming technology** and **media window** providing a better service to both low and high speed users.
- **Full MAC Support** by introducing Flash as a streaming media.

HBN continues to move forward with technology and when we transitioned to the Internet, we opened the opportunity to a wider Distributor audience to view the HBN programs on-line **around the world in all 63 Herbalife countries**.

What are you going to watch today?

HBN is designed to support you and your business by keeping you well-informed and well-trained. We have a growing library of programs available in the HBN Channels and you can “view on demand” 24/7. This puts you in the driver’s seat and allows you a choice of when and where to view hundreds of award-winning programs from HBN.

Please click on this link for a quick welcome and video tutorial!
