

# AM Replenishing Formula

Good digestive health is key to overall health. When the colon and digestive system function properly, your body is better able to absorb the nutrients in the food you eat, and more effectively eliminate toxins from pollution, chemically processed foods and the world around us.

Herbalife recognizes the important role nutrition plays in supporting the body's ability to maintain a healthy colon environment.\* That is why we have created AM Replenishing Formula. This digestion-enhancing product is part of Herbalife's 21-Day Herbal Cleansing Program, a gentle, two-step plan that removes health-robbing toxins from the body and assists in reconditioning the colon.\*

Taken in the morning with a full glass of water, this gentle dietary supplement helps replenish your internal system while revitalizing your body inside and out.\* The AM Formula is based on the highest-quality ingredients available and the latest manufacturing technologies. Its easy-to-digest tablets supply a proprietary blend of herbs and botanically derived enzymes to boost your digestive health.\*

Only a well-nourished body is equipped to eliminate toxic waste. AM Replenishing Formula is designed to give you the nourishment you need to put your colon and your body on the fast-track to healthful living.\*

## Discussion Points

- Colon cleansing: Herbalife's 21-Day AM Replenishing Formula helps maintain a properly functioning colon by revitalizing and rebuilding the digestive system.\*
- Digestion enhancing: Aids digestion so that your body makes the most of the food you eat.\*
- De-toxifying: Helps eliminate toxins absorbed from the air we breathe, drinking water and the foods we eat.\*
- Combine with other products: AM Replenishing Formula can be used in conjunction with the Thermojetics® Weight-Management Programs and Herbalife's entire line of nutritional products.

## Did You Know?

You can help reduce your risk of contracting colon cancer by eating a diet low in calories and high in fiber-rich foods such as fruits, vegetables and whole grains. It is believed that adequate calcium intake and regular exercise also help lower cancer risk.

The horsetail plant actually produces two different types of stems, showing up at distinctly different times—a brownish cone-shaped stem in the spring and a thin, green stem in the summer. It is this summer version, with its wispy appearance, that gives horsetail its name. Horsetail may be found growing in many parts of the Northern Hemisphere in moderate climates. Throughout history, horsetail has at one time or another been used to promote a healthy skeletal system and to promote urinary-tract health and strengthening of nails.

## Fast Facts

- Works best when used in combination with Herbalife's PM Cleansing Formula.
- Helps maintain a properly functioning colon.\*
- Helps eliminate toxins that can result in poor digestion.\*
- Improves energy level.\*
