

# Day Defense

Protect your skin against the sun's damaging rays and environmental pollutants with Day Defense.

Day Defense is a moisturizer that smoothes, softens and refreshes skin. This ultralight lotion also contains a sun protection factor (SPF) of 10 to protect your complexion from damaging UV rays. Day Defense combines a continuous time-release system with free-radical-fighting vitamins to encourage clear, smooth, healthy skin.

For best results, use Day Defense every day in conjunction with other Herbalife skin-care products. Day Defense is a vital component of the Nature's Mirror® Skin Survival Kit.

## Did you know?

It is a common misconception that sun damage occurs only at the beach. Sunburn is an obvious indication of sun damage, but you encounter potentially harmful UV rays any time you go outside, even on cloudy days. Day Defense contains a sun protection factor of 10, ample protection for ordinary daily outdoor exposure. If you plan to be outdoors for an extended period of time, augment Day Defense with sunblock or sunscreen.
