

Regain a more youthful appearance naturally with Lift.

Lift Hydrating Gel is ideal for the sensitive eye area, which is prone to puffiness, dark circles and wrinkling. Lift contains scientifically advanced ingredients to help nourish and smooth the skin.

Lift helps improve the condition of the skin, provides anti-aging properties, reduces puffiness, and soothes skin to prevent inflammation and reduce redness.

For best results, use Lift as part of your daily moisturizing routine in conjunction with other Herbalife skin-care products.

Did you know?

Many factors contribute to the formation of wrinkles around the eyes and mouth: age, lack of sleep, stress, allergies, smoking, even weight loss. Although wrinkling cannot be completely prevented, there are steps you can take to slow down the process, including limiting sun exposure, quitting smoking, drinking plenty of water, and avoiding squinting and frowning as much as possible.
