

Nature's Mirror® Hydrating Eye Cream

The skin around your eyes is thin and delicate, and it needs special care. Nature's Mirror® Hydrating Eye Cream is specially formulated with a gentle multibotanical complex to soothe skin. This complex is designed specifically for the wrinkle-prone eye area.

Did you know?

Vitamin A is a fat-soluble vitamin often found in fruits and vegetables that helps in the formation of healthy skin, hair and mucous membranes. That's why it's a key ingredient in Nature's Mirror® Hydrating Eye Cream.

Fast Facts

- Contains cucumber extract to help soothe and refresh.
- Soothing, moisturizing formula helps firm the skin around eyes and reduce puffy appearance.
- Milky formula restores and refreshes.
- Tiny microspheres reflect light so fine lines and wrinkles become less obvious.
- Dermatologist and ophthalmologist tested.
- Fragrance-free to reduce allergic irritation potential.
- Use both day and night as desired.

Key Ingredients
