

Nature's Mirror® Toners

Using toner daily helps remove the last traces of dirt, bacteria and cleanser. While it's the second step in the daily skin-care regimen, toning is just as important as the first.

Balancing Toner: If normal or combination describes your skin, this toner will serve as a skin-softening anti-irritant that stimulates and moisturizes your skin while also aiding in the maintenance of your skin's water-to-oil balance.

Hydrating Toner: Suffer from dry or sensitive skin? The botanicals in this gentle solution are soothing and calming and also work as a skin-conditioning agent so that your face gets the moisture it needs. This unique formula is free of potential irritants and is ideal for dry, sensitive skin.

Oil-Free Toner: If you have oily skin, this toner will help refine pores for a smoother, finer complexion. The soothing agents in this light solution help reduce oiliness while giving skin a natural glow.

Your skin needs good protection through moisture and cleansing. Give your skin the cleansing and moisturizing it needs with Nature's Mirror®.

Did you know?

The skin replaces itself about every 27 days. Using a toner daily helps the skin with the exfoliation process to allow new skin to shine through.
