

# new country opening

Herbalife welcomes our 53<sup>rd</sup> country on  
November 14<sup>th</sup>, 2001

## Croatia!

Croatia is a land rich in diversity.

Geographically it contains the sunny beaches and islands to the south & west, low mountains to the north and flat plains which border Hungary. Croatia's landscape ranges from small villages in the interior to the dramatic Dalmatian coastline. In the north, the Istria peninsula includes major coastal resorts. The aura of medieval Croatia endures in the cobbled streets and the country is also home to some of Europe's finest Roman ruins,

including the immense palace of Diocletian in Split.

Croatia's industries are diverse as well. From chemicals & plastics, to textiles, shipbuilding and tourism, Croatia seems to produce a little bit of everything.

*Who do you know in Croatia?*
