# Congratulations

## Gregg Davison

Two and a half years ago, I was working 60-80 hour weeks as a corporate executive. Living in Sydney and travelling the world with a big salary seemed glamorous from the outside looking on, but I was deeply unsatisfied. I had tried other home businesses before and had only gotten deep into debt, so I kept searching for my vehicle of fortune

I never gave up on my dream and Herbalife found me just at the right time. I was already passionate about health and nutrition, but when I saw the marketing plan, that's when I got seriously excited. The chance to build a business doing something I was passionate about and help thousands of people at the same time

I then had to make a life changing decision. My corporate visa meant I couldn't run my Herbalife business in Australia, so I was faced with a choice of continuing my corporate career in Australia, or coming back to the UK to pursue my dream with Herbalife.

I decided that sunshine isn't everything and came back to England. Already in good shape from years of training at the gym, I got on the products and got into my best ever condition, reducing my body fat to an incredible 7% and gaining more strength and vitality than I ever had. Inspired by my belief in the products, I built a great customer base and started to build a team

Just 6 weeks into my business, my sponsors Jo & Colin Cantle told me that if I wanted to be successful I needed to be at the Barcelona Extravaganza. I was reluctant to spend the money or take time away from my business, but I'm thankful that I took their advice because seeing 21,000 Supervisors under one roof, and hearing the rags-to-riches stories of the multi-millionaires, gave me the inspiration and belief that I could follow them. If I hadn't gone to that event I don't believe I would be Global Expansion team today, so my advice to all is to use the big events as a springboard to your dreams

As great as Herbalife is - It's easy to get distracted and lose your focus when you're in business for yourself. For most of 2005, I had lost that focus and I watched too many people fly past me on the marketing plan. There were times when things weren't going well, but I always believed I could make it if I kept trying harder and getting better every single day. Then in Christmas 2005, I decided 2006 was going to be my year and nothing was going to stop me.

At a leadership training, my upline Presidents Team member Russell Gain, said to me "Gregg, you can get to the TAB team, you just have to believe you can do it, put your blinkers on and work with intensity" So that's EXACTLY what I did. With a renewed focus I started sponsoring at least 5 people every single month and soon realised that I had found my life's greater purpose which is 'To inspire people to lead greater lives'. I became great at inspiring people to fulfil their dreams!

I found myself leading an incredible team of enthusiastic distributors. I knew that if I wanted to get to the next level, it was important to teach them the principles for success that I had learned. Always go to every STS and attend the big events, Decide to have a great attitude every day, For things to get better YOU must get better, above everything have a great work ethic and put sweat on your brow!

Just after Xmas 2006, I made it to the Global Expansion Team and the biggest achievement of my life to date!

I'm blessed to have amazing mentors and to be part of a unique family. I look forward to spending the rest of my life working with them, travelling to different countries, and sharing this amazing journey. Above all the greatest satisfaction I have in my life is helping my team to live greater lives, and see them become more than they ever thought they could be. Thanks Herbalife for giving us all this amazing opportunity and I'm incredibly excited for the future.
