# Congratulations

## Mary & John Willis

“ Herbalife found us in June 2002 after a fairly long search for an opportunity to find a way for Mary to work from home to look after Mary’s disabled Mum. The first thing we decided to do was work on our product results – Mary to lose around 2 stone and John to gain a little weight healthily! In less than 3 months we couldn’t believe the difference in our general wellbeing - our product results are something that are still one of the strongest foundations to our business!

We quickly had the customer base to qualify it just seemed to make perfect sense for us as we wanted the best start. – reword to fit the sentence We got to working really hard and quickly buildt a solid customer

base and just four short months later we qualified to the World Team to attend our first World Team School in Malaga in November 2002. Since then we have attended every international event as well as an STS every single month since we came into the business as keeping around the successful people and constantly working to upgrade our skills has always been a priority to us.

Sponsoring and team building was a more of a challenge for us – juggling time and moving from “managing” a large customer base into more of a leadership role took time - but now we have the most amazing team who we are so proud of – we look forward to each and every one of them joining us on the TAB team!

We wish to thank our sponsor Cristina Munoz because without her we wouldn’t have found this magical business and have the opportunity to help others whilst building our financial freedom. More recently our upline President’s Team member Kim Bassett has truly helped us to create magic through her belief in us and the vision she encouraged us to form and then hold on to – we thank her most sincerely.

We feel so blessed to be part of a business that offers so much – health, future wealth and the opportunity to be on a journey with friends and colleagues from all walks of life that share the same dream, and who motivate and enrich one another – that is truly magical!

Thank you Herbalife – we look forward to 2007 and joining the Millionaire team very soon!

Mary and John
